

Make Your Own Flipbook!

Carefully cut out the white squares with Pink Rabbit on.

Each square is a little bit bigger than the last, this will make it easier for you to flick through!

Cut off the stripes, you don't need this bit.

Place one image on top of the next, with number 10 at the bottom.

Hold the left hand edge in one hand a flick through... you've made Pink Rabbit jump!

1		6	
2		7	
3		8	
4		9	
5		10	

Make Your Own Flipbook!

Have a go at creating your own images.

Each one should be very slightly different to the previous.

To make it easier you could trace over your first drawing.

You could draw your own Pink Rabbit jumping or maybe Isadora waving.

We can't wait to see what you come up with!
